one of the best shoot em upu00b4s with smooth and direct controls (gamepad), awesome graphics and one of the best shoot em up soundtracks ever created - magic :-). I need more games like this. A masterpiece.. Amazing. Zoned out proper arcade

gaming. Criminally slept on, on pc.. Finished game on rookie in 1.5h. Story mode if you can call it that has 5! levels. Trailer and soundtrack (which is amazing btw, check it on youtube!) sold me different game. People who love mastering hard difficulty and getting highest scores is target crowd for this game, they probably should buy it, but if you into meaningful story or narration, avoid it, game has nothing to offer.
